Title: Mutual Aid Agreements

Date: 07/07/05

Identifier: 2005-RF-22

Lessons Learned Statement: Maintain fire services Mutual Aid Agreements for the longest time feasible.

Discussion of Activities: It is in the best interest of the Contractor and DOE to maintain fire services Mutual Aid Agreements for the longest time feasible. The approach at Rocky Flats was to retain a minimum on duty fire department force that would allow a vehicle and 3 responders to leave the site while still meeting the DOE criteria of 5 firefighters on the scene to initiate an interior fire attack. A significant emergency can rapidly become manpower intensive, thus the prearranged assistance under Mutual Aid Agreements is extremely valuable.

Analysis (May be incorporated into the Discussion):

Recommended Actions:

Estimated Savings/Cost Avoidance (if applicable):
